

DRUG DISCOVERY 2022

DRIVING THE NEXT LIFE SCIENCE REVOLUTION

4TH & 5TH OCTOBER 2022, EXCEL, LONDON

WELCOME TO DRUG DISCOVERY 2022 ELRIG's annual Drug Discovery meeting which remains Europe's largest meeting for life sciences industry professionals. This year we will celebrate the drug discovery industry's long history of hosting disruptive and innovative technology developments, whilst exploring the next life science revolution and the exciting prospect of driving a renaissance in the life sciences, with the following science tracks:

- Overcoming Challenges and New Directions in Medicinal Chemistry
- High Content Imaging in Drug Discovery
- Cell & Gene Therapy
- Drug Discovery and Development in COPD (content provided by the British Pharmacological Society)
- Innovation through partnership
- Frontiers of Chemistry applied to Drug Discovery (content provided by the Royal Society of Chemistry)
- Developments in Preclinical Models
- Advancements in Screening and Automation (content provided by Society for Laboratory Automation and Screening)

MEET OUR CONFERENCE DIRECTORS

Katie Chapman
Discovery Biology Director,
VC funded Biotech Company

Simon Chell
Executive Director,
Discovery Biology, AstraZeneca

Jon Hutchinson
Scientific Leader,
GlaxoSmithKline

Simon Ward
Director of the Medicines
Institute, Cardiff University

This event is free-to-attend,
so please register now at
